Education is the most powerful weapon to change the world". Says Nelson Mandela . A human being cannot attain great heights without being educated. Education is and will be the most powerful tool for individual and social change, and we must do all that it takes to facilitate it. It's the key to broaden horizon and liberate people. Education for life is not merely an over night venture. It demands ceaseless efforts, coined with a vision and credible values. To accomplish anything great in life we need to think beyond the realms of normal thinking.

We immensely feel deep joy and pride to present the annual school magazine that unfolds the creative talents of our aspiring writers, poets, artists who have carved an iche for themselves and left imprints of the school. The best thoughts and ideas come from the young and creative minds of today. So it's important not only to educate students but empower them, to instill in them the confidence and courage to realize their dreams.Ultimately provide them with ample opportunities to learn, discover, grow and fly high.

We witness that the Students have put forth their ideas and thoughts that are too deep within and it is expressed through their writings. We believe that the positive attitude, sustained efforts and an innovative ideas exhibited by our young apprentice will definitely stir the minds and hearts of the readers.

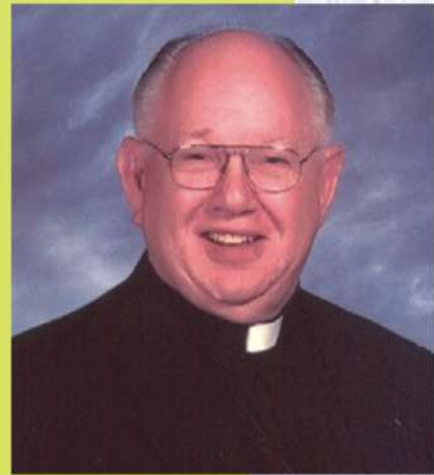

We are grateful to Fr. Alfred D'souza CSC, the Principal of the school for his timely guidance, motivation and support. Our heartfelt appreciation to all the contributors for their efforts have added aroma to this magazine. My special thanks to the unsung members of the editorial team for their unrelenting efforts. I am grateful to all the teachers for collaboration and contribution to bring out this annual magazine.

I heartily wish all the readers my best wishes and hope that this magazine will have your critical acclaim and prove itself to play a vital role in over all development of the lives of the students.

Dear Fr. D'Souza,

Greetings from the great City of Rome and the headquarters of the Congregation of Holy Cross!
A very blessed day to you, your faculty, staff, students and families.

It is a wonderful privilege for me to greet all of you as you draw the 2019-2020 Academic Year to a successful conclusion. I trust that you have all worked hard at the great human task of seeking knowledge and understanding and imparting it with wisdom and grace.

The founder of the Congregation of Holy Cross, Blessed Basil Anthony-Mary Moreau, had a passion for the education of young people. He knew in his heart that God was calling him to raise the level of understanding the true value of human life. Therefore, he would often tell his religious Brothers and priests that our educational goal must always be to educate both our human mind as well as our human heart. He would say, "The mind will not be cultivated at the expense of the heart. While we prepare citizens for society, we shall likewise do our utmost to prepare citizens for heaven."

Blessed Father Moreau believed that increasing knowledge, including scientific knowledge, always had to be joined with growth in true, lasting values. The maxim is true today as it was two hundred years ago. Even your theme for this academic year, the goal you set for yourselves, echoes his wisdom. **ASPIRE TO INSPIRE** is a lofty ambition. It governs all your words and teaching; it demands the constant evaluation of your actions and conduct. It invites teachers to be good examples and students to grow into mature adults. All are to be **ROLE MODELS** for others.

My hope is that each of you has been a beneficiary of someone who has aspired to inspire. Even more that each has succeeded in being inspired to be someone greater than you are now. God bless all your efforts. May Notre Dame, our Mother, always guide you to be a better you.

Sincerely yours in Holy Cross,

(Rev.) Robert L. Epping, C.S.C.
Superior General

I am so happy to know that Notre Dame Holy Cross School Moharpara, under the leadership of its dynamic Principal Fr. Alfred D'Souza, CSC, is publishing its Annual School Magazine. Such an endeavour is laudable as entails the effort of many hands and heads and brings about a great sense of unity. Let me congratulate you all, beginning with your Principal and the Editorial Board.

The Theme for this academic year 2019-20 was Aspire to Inspire. While the theme suggests the inner longing of every Teacher for their Student, it can also be an inspiration for every student to inspire others as they move out of their School premises, and eventually out of the portals of the School. I know that the School community has made great strides in the past 12 months trying to achieve the theme.

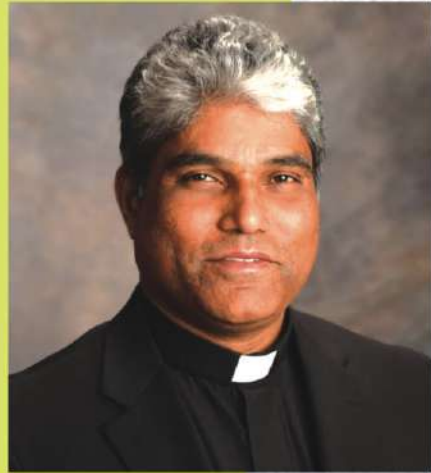

I am happy to hear of the various events that were conducted by Notre Dame Holy Cross School Moharpara during the past year like, Science Exhibition, celebrations of National Festivals, Sports, Literary and Cultural Competitions. I congratulate the School for all these co-curricular activities which were in addition to the academic activities. As Mahatma Gandhi, the Father of our Nation once said, "It is not literacy or learning which makes a man but education for real life." Notre Dame Holy Cross School provides real life education.

I invoke God's abundant blessings on the School community and wish you all success at every step of your journey.

Dear Fr. Alfred

It gives me joy to write a few lines for the school magazine 2020. The Notre Dame Holy Cross School as a 'legal person' has grown to its adulthood, contributing to the welfare of the society by educating and inspiring the students to be confident and competent, right and responsible in deciding and dealing with issues that will have an impact and influence on them and on the society.

Holy Cross educational institutions have promoted a spirit of family within its campuses. Whether it is the classroom teaching, corridor conversations, libraries and science labs, playgrounds and prayer halls, all promote a spirit of quest and quality, cordiality and confidence, respect and relationship. This experience of an atmosphere of freedom and friendship with mentors and peers give students a strong foundation for growth and step-by-step advancement in their critical thinking and ethical deciding for them and for others.

A school is a second home for students. It not only aims at the academic excellence of the students, but also foster their affective growth and enhance social skills through their participation in co-curricular activities. Schooling is all about giving life to a child. What a noble mission! I congratulate you and your teaching staff for the daily dedication and silent sacrifices you do in accompanying students towards a future better than today.

It gives me an immense joy to learn that Note Dame Holy Cross School, Moharpara bring out an annual school magazine with a excellent theme "Aspire to Inspire". I wish to affirm once again my gratitude to the Guardians and parents who have entrusted their ward to our care seeking value based education. With the modernization and digitalization, value based education is a constant challenge. But with the hard efforts of our dedicated and committed teaching and non-teaching staff and with the cooperation and collaboration of our guardians and parents we can achieve much. I only wish to reaffirm that Notre Dame Holy Cross School Moharpara will continue its educational tradition and legacy preparing its wards for an integrated approach to life. In a world that is often characterized with pleasure, wealth and power, it is a great task to educate the students in the values of generosity, sharing, forgiveness and love.

As I recall the words of Blessed Fr. Basil Moreau, the Founder of our Congregation who addressed the teachers saying: "always place education side by side with instruction; the mind will not be cultivated at the expense of the heart." The vision of our founder was to educate both the heart and the mind of the students to make them useful citizens of the society. I strongly believe that the curriculum of Notre Dame Holy Cross school, Moharpara is trying to do the same. That is to educate the heart and mind of students and prepare them to be effective citizens of our country.

My best wishes to all who will be working hard in bringing out this addition of the school magazine. May God Bless Us All.

Fr. Arul J CSC
Secretary of the School

It is a matter of joy for me to write these few lines on the occasion of publishing annual magazine. The school magazine is a good channel of communication to make known the vision and the goals of our educational institution to the school community, to the guardians and to the well wishers.

“Good leaders create a vision, articulate a vision and passionately own a vision and turn into a reality”. Jack Welch

In the aftermath of the French revolution, the quality of educational parochial and pastoral services was slow in France. Even after three decades discouragement was often the lens through which people looked towards the future. Blessed Basil Moreau, the founder and leader of the Holy Cross Congregation entered this arty. as man with hope, convinced of humanity Goodness and potential, recognizing the image of God imprinted within all people. He was passionate and purposeful about making a difference in the world. He embraced the call to be educator and missionary. In this conviction and call, this passion and purpose we find the roots of Holy y Cross Education. Fr. Basil Moreau envisioned education as the main source of empowering the young for a better and brighter world to lift up the society. Holy Cross Education is “Educating the heart and mind”.

Cardinal John Henry Newman. A famous theologian, historian, and intellectual leader was recently canonized of whom Pope Benedict XVI paying his tribute to Newman’s vision of education, the pope said: “I would like to pay particular tribute to Newman’s vision of education, which has done so much to shape the ethos that is the driving force behind catholic schools and colleges today firmly opposed to any reductive or utilitarian approach, he sought to achieve an Educational environment in which intellectual training, moral discipline and religious commitment would come together”. Pope Benedict XVI’s words further clarify the vision of Cardinal Newsman for our educational institutions.

Blessed Basil Moreau’s envision that through our educational institutions prepare the young people to be spiritually enlightened, morally sound and intellectually competent, socially alert citizens of tomorrow. For this require an efficient system of administration, it clearly defined vision, mission, goals, programs, organization, culture and operation of our institutions.

As the academic year is ending we could ask ourselves how we were able to translate the vision and the goals of our educational institution in the past in collaboration with the school community and the guardians. How can we do better in the coming academic year? How can we prepare the young people spiritually enlighten, morally sound, intellectually competent and socially alert citizens.

I like to congratulate the principal, the headmistress, the staff and the students for taking initiative and pain to publish this school magazine. May almighty God continue to bless us that our effort may bear abundant fruit in days to come.

The beautiful Moon

One night, as I was about to sleep;
Seeing the beautiful moon
Hanging above the sky so high,
I wonder how I got to be so lucky to get such
an awesome friend like the star,
That can never leave the sky and the
beautiful moon, my awesome friend.

The beautiful nature

The beauty of the nature never ends.
The most beautiful thing given to us by God
is nature.
You can see the wonder of nature outside
your house.
Nature is our life, if there are no trees then
there will be no life in this world.
So, dear friends save plants and don't cut
down the trees.
If you cut down trees, don't forget to plant
more trees.
Dear friends, just think from where we get
oxygen?
Your answer will be plants.
But, we don't think about these and we
simply cut down the trees.
So, my dear friends try to save plants, if we
save plants then the nature would look more
beautiful.

Mother

There is a person in this world called 'Mother'
There is no greater love than motherly love.
There is no way to repay her love.
How would I live alone without you?
You are always there to scold me and guide
me.
You are there in my happiness and sadness.
I always need you by my side.
You carried me in your womb and brought
me in this world.
You taught me how to walk and smile.
And now you left me alone in this world.

Friendship

A friend is someone we can trust. We are not
afraid of telling our secrets to him. A true
friend will not make use of what he/she knows
about us. True friends are loyal to each other.
They know each other's weaknesses and
shortcomings, but they speak to others only
good things about one another.
Human being cannot live alone. Everyone
needs someone to share his/her joys and
sorrows with. We need to feel that someone
like us. The dear ones in our family love us;
but we also need friends. A selfish, dishonest,
proud and rude person is disliked by all. Such
persons are always lonely. They have no
friends. We can be friends with many people
but our closeness to them may vary.

My dog ate my homework

My dog ate my homework.
That mischievous pup.
Got hold of my home work.
And gobbled it up.

My dog ate my home work.
It's gonna be late.
I guess that the teacher
Will just have to wait.

My dog ate my homework.
He swallowed it whole.
It shouldn't have mixed it
With food in his bowl.

Cleanliness of the mind

Noble deeds are a result of a clean mind. Having a clean mind means keeping away thoughts that may harm others as well as us and filling our mind with positive thoughts. Cleanliness of the mind is a must if we want to be healthy and develop noble qualities. It is wrong to think a person as bad, selfish or proud by merely looking at him. We should not judge others because this can create a feeling of hatred and enmity. We should not think of harming others. A bad thought leads to bad actions. When we think of harming others, we may also end up harming ourselves.

Our thoughts may prevent us from doing something good. Sometimes we feel shy. We think we cannot do something that our parents or teachers ask us to do. We are afraid of making mistakes and feel that our companions will laugh at us. These are negative thoughts that will never allow us to grow. We must think we are capable. People love us because we are worth loving. These are the positive thoughts that should absorb if we are to live a prosperous life.

Teacher

A teacher for all season
A teacher is like green sprouts
Who nurtures new green sprouts
Encouraged and lead them

Friendship

Friendship is the most valuable relation inside of person. People mostly prefer making friends of same caste, does not matter in friendship. Friends should be chosen carefully because some friendship might ruin our life by taking us on the wrong path. Our bad times make us realize about our good and bad friendship. Misunderstanding between the friends can break our friendship but the true friendship will never be broken.

In today's world its very difficult to find true friends. True friendship has no blood relation. It is hard to imagine life without friends.

About happiness

Everyone in this world wants to be happy. Even the animals and birds want to be happy. People look for happiness in different ways. Everyone has his or her own way of making himself/herself happy. There are others who collect money, who dance, who eat and drink, who study and write books, who struggle to be powerful, who try to control others or who want to have a beautiful car or a big house because they want to be happy. There even are people who think, they can become happy by making other people unhappy. There is a happiness institute in Australia. Their studies show that the secret of happiness is to decide to be happy. We can choose to be happy or sad whether we are rich or poor. Everyone has the right to be happy. If you remember this, it will help you to do the right things always. While you try to make yourself happy you will not disturb anyone else's happiness. You will not block others from being happy. Some people speak ill of others, trying to make happy themselves. Do not be disturbed when people make bad comment about you. For example, you may have a new pair of shoes that you think are really beautiful.

Be thankful

Do you have a school to study
Or friend to call buddy?
If not only school by also friend
Be thankful!

Are your eyes disabled?
Or your legs paralyzed?
If not, then
Be thankful!

Do you have a garden to play in
Or a house to live in?
If you have the one as well as the other
Be thankful!

Do you have hands to write,
Or a cheerful mother to keep your future bright?
If you have both
Be thankful
For God of heaven
And earth loves you, Be thankful!

"I love my parents with all of my heart, always and forever"

I have lot of heroes, but the most important heroes to me would be my mom and dad. They are always there for me whenever I need them. When I am sick they make me smile and that always makes me feel better. My parents are very caring people and their main priority is taking care of my sister and me. They are there to support me. Let's start with mom. She is great. My mom is always happy, she can put a smile on anyone's face. She also will never let you down. If she says something she sticks with it. She is very spontaneous and outgoing. She comes up with great plans to make the day perfect. She always makes things crazy too.

About me

I have many name
But I am called "what's your name"?
Some are good at studying, singing, dancing but I am good at "something" called mysterious.
I just wish a heart that beats for others, joys and sorrows to share.
I just wish a mind that looks beyond, a soul that truly cares.
In this world today, if a loving heart is a treasure
Then I pray to every one to judge me using a new measure.
Don't judge me by how many prizes I win but by how many sorrows I share.
Not by the number of claps I don't earn but by my ready stock of compassion.

I am Unique

I Feel unique and I am unique,
But I may be mistaken.
I truly have no idea of being unique
But I feel unique and
Have to be unique.
My thinking is small
But the desire to do is a bit bigger.
My capacity of doing things is small,
But I love doing even the small work sincerely.
I truly introspect myself.
My behaviour, character and thoughts are
not strong enough,
But I can feel the presence of courage inside
me.
I may not brilliant in studies,
But I always try to work hard and bring out my
best.
My laughter and smile are endless,
Which no one can take it away from me.
God created me unique and therefore I am
unique.

Stars

Stars in the milky way,
which make the dreams come true.
White as milk,
Filled with cream,
The stars makes
An ice-cream land,
Where lies sweet milk chocolates.
It is morning and time for school
So good bye stars.

My Mother

My mother is the most precious and caring
Person in my life she is my first,
Foremost and best friend.
She cares for me and loves me a lot.
She stands by me in my good and bad
times.
My Mother wakes me up early in the morning
for School.
She prepares nutritious breakfast and tiffin for
me.
She waits at the door when I come back
from school.
My mother helps me in my homework.
At bed time, she tells me bedtime stories.
She spends sleepless night and takes care of
me when I fall sick.
She teaches me to follow the right path and
do the right things.
She is like a teacher to me, who teaches me
how to walk, behave
And many more good things.,
She always inspires me to do something
good for the future citizens of my country.
I love my mother very much and I can never
forget the sacrifices she has makes for me.

My little star

Oh! My lovely star,
Who shines in the sky,
How beautiful you are,
You are my friend.

My best friend,
Come to me,
My love my beautiful one,
Come the winter is gone.

The rain is over,
Flowers appear,
On earth the season of singing has come,
My friend come to me.

Let me see your face,
Let me hear your voice,
Your face lovely,
Your voice sweet.

Children for life

Every child begins the world again. Children are the world's most valuable resource and its best hope for the future. A baby is little piece gifted from heaven. A baby is born with a need to be loved and never out grows it. Honey is sweet, a little baby is even sweeter. Babies touch the world with love. The little ones makes biggest foot prints in our hearts.

Confidence

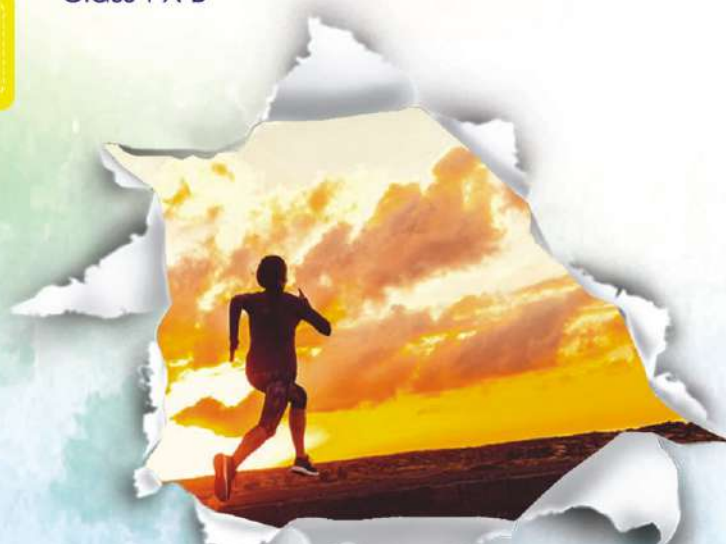

We accept that the things beyond our understanding. Many of our religious belief cannot be rationally explained. That is why we call them 'belief' and not 'knowledge'. But these belief helps us, as we said above. They liberate us, they strengthen us in our struggles in life. They make life easier and more pleasant. We can succeed if we want to. Have faith in yourselves, God loves us and He wants our good.

Day

Every day is not good But
Every day has a good in it
The days we have spent with
Our friends, or family.
Always it remains in our minds
Whether we spend our days in enjoyment!
On Monday or Friday or anyother days
In the beginning of every week
Monday we are quite lazy
And at the week end
Sunday holiday
Every day there is something
Interesting.....

Why is it a part of our life?

- Why are people jealous of others?
- Why people only look for profit?
- Why are people in need of style?
- Where there is a secret, there is something wrong.
- Is n't it better be rich in God, than in gold?
- God comes to see us without a bell.
- Pain is forgotten when profit comes.
- Why people speak ill of others?
- Isn't quite mind richer than crown?
- Why zero is the hero of mathematics?
- The day has eyes but night has ears.
- Why he/she who fights and runs away, may live to fight another day?
- Why? If you wish to reach higher begin at the lowest?
- Knowledge is a treasure but practice is key to it.
- Mischief comes by the pound and goes away by the ounce.
- Laugh and the world laughs with you but weeps and you weep alone.

Learning from the sun

The sun,
Rises in the east and sets in the west
Every human should be truthful
The sun,
Shines over the people
Every human should serve others
The sun,
Hides itself behind the cloud
Should be humble enough to be lost
The sun,
Smile brightly in the sky
Realize your purpose and shine
The sun,
Is like a flaming ball
You are unique! But sign of life

Switch of life

Where there is light, there is darkness.
In the same way, there will be darkness and there will be light too.
Life switches can be off or on.
Sometimes the switch may be damaged but we can repair it.
But in this life, life is once dead, is dead forever.
We cannot repair the dead life, but we can repair the present life.

Present

Everyone has a past memory about their life.
We can neither bring back the past nor change it.
Our past incident sometimes makes us happy and sometime sad.
However, we cannot change our past.
The present time, we have now is the best time to do things better.

Time

Time is slow, when we wait.
Time is early, when we are late.
Time is deadly, when we are sad.
Time is short, when we are happy.
Time is endless, when we are in pain.
Time is long, when we are bored up.
Time runs according to our feelings and psychological conditions.

A wonderful Mother

God made a wonderful mother,
A mother who never grows old,
He made her from the smile of the sunshine,
molded her heart of pure gold,
In her eyes, he placed bright shining stars.
God made that wonderful mother, and He gave that dear mother to me.

Hard work

When you want something really bad,
When not having it in your life makes you sad,
Maybe it is time you work a little harder,
Only then you will be able to climb up the ladder.
Nothing in life comes to us easily.
We all have to give fortune a little squeeze but when you do,
Luck will surely shine up bright.
And, you will never have to see a dark night.

Beginning is you yourself

Your thoughts become your words,
And your words become your action.
Your action becomes your habits,
And your habits become your value.
Your value becomes your destiny,
And its roots is in you.
You are to bear it.
